

Photo & Video Guidance

Why does Tristar Reads need a photo or video of my child reading?

How should I capture my child reading?

If you choose to take a photo, please do so with your phone in a well-lit location that shows your child reading.

If you choose to record video of your child on your phone, please have them read a portion of the book out loud. It's best if they read 10 to 30 seconds. The recording should be shot horizontally (with the phone turned sideways so the screen is wider).

Where should I send the photo or video?

Please email all photos or videos to us at the email address below:

Meredith@TNSuccess.org

If the video you shot is too large to email, you can send it for free through services like [WeTransfer](#)

Does emailing a photo or video automatically qualify my child for the weekly gift card drawing?

Yes. Every week we will draw the name of one phot/video submitter for a \$40 gift card to Barnes and Noble to buy books.

If your child wins a gift card they will be notified through the email you used to send us a photo/video.
